  - e) Portfolio E, which could have a balance ranging from \$8,400 to \$14,000 at the end of the year.
- 11. If the value of your investment portfolio dropped by 20% in one year, what would you do?**
- a) Fire my investment advisor.
  - b) Move my money to more conservative financial products immediately to reduce the potential for future losses.
  - c) Monitor the situation, and if it looks like things could continue to deteriorate, move some of my money to more conservative financial products.
  - d) Consult with my investment advisor to ensure that my asset allocation is correct, and then ride it out.
  - e) Consider investing more because prices are so low.
- 12. Which of the following risks or events do you fear most?**
- a) A loss of principal over any period of 1 year or less.
  - b) A rate of inflation that exceeds my rate of return over the long term, because it will erode the purchasing power of my money.
  - c) Portfolio performance that is insufficient to meet my goals.
  - d) Portfolio performance that is consistently less than industry benchmarks.
  - e) A missed investment opportunity that could have yielded higher returns over the long term, even though it entailed higher risk.
